

Tech Today Times

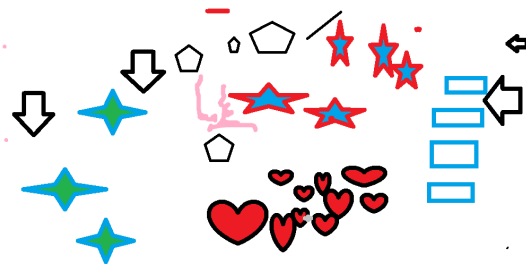

April 2019

At Tech Today we are learning and exploring Microsoft Paint. Some of the drawings have the artists' name on their work. We are learning Paint through various interactive Group Teaches.

I Typically like hockey and football sabres and Buffalo Bills but every march i do like waching march madness.

I was happy that of our buffalo bulls made it to the Seond round men and womens made it.I saw the Harlem Globe Trotters two year ago they do tricks its like comedy too.

Both of the above were created by Lizzie S

Created By: Brandi B.

Created by: Annie M.

My Inspirations

My big sister is one of my best friends, I will be going to see her in July and we are going to have a cook out. And my other inspirations are Michelle Obama and Kamala Harris. Senator Kamala Harris is running for president in 2020. Her and Michelle are positive influences to our health and our economy. What inspires me about Michelle Obama is Her Let's Move Campaign where she talks about healthy eating, exercise, and also making healthy choices, and she shows you how to garden. A garden teaches you how to eat healthier. Kamala Harris is Running for president in 2020. She likes to cook too. She wants healthcare for all, this is good for everybody to have health care and not worry about their premiums going up. By Hazel R

What's Happening?!

This Month, we welcomed a new staff! Welcome Chuck! Chuck comes to Tech with years of experience within Aspire. We look forward to really learning some great things from Chuck!!

Come and Join us at **Pastry By Camille (1416 Hertel Avenue) on Wednesday April 10th from 6p-9p** to view some of our Artists as a new art exhibit is launched!

** This newsletter is brought to you by: Tech Today Buffalo. It is a collaboration of every session throughout the week. Continue to look for new and exciting issues.
